Marty Williams asked for clarification on the Park & Recreation Budget, which was explained that the budgeted amount in the General Fund is for the events that are planned for the year. Capital projects at the parks are paid for from a different fund. She also questioned what the roll of the Park & Recreation Board is and how to get more people interested and involved, and the response was to listen to the community and do what they can with what they have.

Diane Gill mentioned the suggestion that was made at the last meeting to install exercise equipment at Lindenwood Park and questioned if anyone would use it. An explanation was provided that the pending status of the parcel of land owned by the school, as well as the need for a cut and fill project are the two items that need to be handled prior to moving forward with other projects.
