INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors
Dickinson Township
Mount Holly Springs, Pennsylvania

Opinion

We have audited the accompanying financial information included in the Form DCED-CLGS-30, Commonwealth of Pennsylvania Municipal Annual Audit and Financial Report ("Annual Financial Report") of Dickinson Township (the Township), Cumberland County, Pennsylvania, as of and for the year then ended December 31, 2024.

In our opinion, the Annual Financial Report referred to above presents fairly, in all material respects, the regulatory basis financial position of Dickinson Township, Cumberland County, Pennsylvania, as of December 31, 2024, and the respective changes in the regulatory basis financial position thereof for the year then ended in accordance with the financial reporting and accounting provisions prescribed and permitted by the rules and regulations of the Department of Community and Economic Development (DCED) of the Commonwealth of Pennsylvania.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Annual Financial Report section of our report. We are required to be independent of the Township and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of a Matter

Basis of Accounting

The Annual Financial Report is prepared by the Township, in accordance with the financial reporting and accounting provisions prescribed and permitted by the rules and regulations of the DCED of the Commonwealth of Pennsylvania, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the requirements of the DCED of the Commonwealth of Pennsylvania. As a result, the Annual Financial Report may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Annual Financial Report

Management is responsible for the preparation and fair presentation of this Annual Financial Report in accordance with the financial reporting and accounting provisions prescribed and permitted by the rules and regulations of the DCED of the Commonwealth of Pennsylvania. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of this Annual Financial Report that is free from material misstatement, whether due to fraud or error.

Members of the American and Pennsylvania Institutes of CPAs

In preparing the Annual Financial Report, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township's ability to continue as a going concern for twelve months beyond the Annual Financial Report date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Annual Financial Report

Our objectives are to obtain reasonable assurance about whether the Annual Financial Report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the Annual Financial Report.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the Annual Financial Report, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts in the Annual Financial Report.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the Annual Financial Report.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Restriction on Use

This report is intended solely for the information and use of the Board of Supervisors and management of Dickinson Township, Cumberland County, Pennsylvania and for filing with the various state and local departments or offices and is not intended to be and should not be used by anyone other than these specified parties.

2024 MUNICIPAL ANNUAL AUDIT AND FINANCIAL REPORT

Types of Fund Groups Used in Governmental Accounting

Following is a listing of the types of "fund groups" that are used in governmental accounting. Please report information on those funds used in your municipality.

FUND OR ACCOUNT	DESCRIPTION
Governmental Funds	
1. General Fund	Accounts for all financial resources except those required to be accounted for in another fund. Includes transactions for general governmental services provided by the executive, legislative and judicial operations of the governmental entity, public safety, public works, codes enforcement/zoning and parks and recreation.
2. Special Revenue Funds (includes state liquid fuels)	Accounts for the proceeds of revenue sources that are restricted for specified purposes. Includes resources and expenditures for operations such as public libraries, recreation, fire houses and equipment and pensions when a separate tax or a portion of the real estate tax is specifically designated by ordinance/resolution.
3. Capital Projects Funds	Accounts for financial resources for the acquisition or construction of major capital projects that benefit many citizens such as municipal buildings, roads and water/sewer and storm water systems.
4. Debt Service Funds	Accounts for the accumulation of resources for, and the payment of, general long-term debt principal and interest. This fund is used for servicing the long-term debt of the government.
Proprietary Funds	
5. Enterprise Funds	Accounts for operations of government units that charge for services provided to the general public. Includes those activities financed in a manner similar to private business enterprises where the intent of the governing body is to recover the costs of providing goods or services to the general public on a continuing basis through user charges. Examples include water systems, sewer systems, refuse operations, convention center, sports arenas, municipal electric utilities and municipal bus companies.
6. Internal Service Funds	Accounts for the financing of goods or services provided by one department or agency to other departments or agencies of the government unit. The services are usually provided on a cost-reimbursement basis and are offered only to other government agencies, not the general public. Examples are municipal motor vehicle pools, city print shops and central purchasing operations.
Fiduciary Funds	
7. Trust Funds	Accounts for assets held in a trustee capacity. Examples of a trust fund are a trust created from a citizen's gift for the use in the development of a city park system and pension funds that are held either by the local government or a third party on behalf of employees. (Please see "Pension Reporting" under "Other Information" for additional information.)
8. Agency Funds	An Agency Fund is used to report resources held by the reporting government in a purely custodial capacity. An Agency Fund typically involves only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.
Account Groups (Balance Sheet Only)	
9. General Fixed Assets Account Group	This account group maintains a record of fixed assets acquired by the governmental-type funds. Proprietary funds maintain their own fixed assets in their account.
10. General Long-Term Debt Account Group	This account group maintains a record of the unmatured, general long-term liabilities of the governmental-type funds.

If this is the case, please identify this via the "Efiler Notes" at the bottom of the online "Annual Financial Report" screen.

However, in order to provide needed data to the Census Bureau, please isolate and restate capital expenditures here. List by principal functional category. To identify capital expenditures, use the municipality's own definition. **Capital expenditures are generally considered to be those which result in additions to the value of fixed assets (land, buildings and other structures, machinery and equipment).**

Employee Compensation. Total W-2 wages, salaries, commissions and other compensation paid during the year to municipal officers and employees, including elected officials. Include compensation paid to the elected tax collector. **Note: These are personnel costs already shown in a different manner in the Statement of Revenues and Expenditures. It is suggested that the elected auditor take an advisory role in the improvement of the municipal financial procedures, especially as they relate to internal controls as defined by Generally Acceptable Accounting Principles as deemed appropriate, and that any findings and recommendations be submitted in a separate management letter accompanying the Annual Audit and Financial Report. This letter, which should be addressed to the local governing body, should indicate its purpose and reference the Annual Financial Report. **This letter is optional and should not be submitted with the Annual Audit and Financial Report to the Governor's Center for Local Government Services.**
